Thirteen girls and fifteen boys in Grade 1-2, under the supervision of their teacher, Mrs. Marilyn Davison, were having a reading lesson.

One of the greatest accomplishments in first grade is being able to read their first book. Since reading plays an important part in their future, they spend a considerable part of their day in oral and silent reading.

Mrs. Pearle Parkin, the teacher of these 23 boys and girls, thinks that they are an outstanding group both in scholarship and behavior. They were diligently studying their spelling when this picture was taken.

The high points of their work this year have been mastering the multiplication facts and of being able to divide correctly any fourth grade problem in their arithmetic book.

Twenty-five boys and girls make up fifth grade - section two. Ray Grinstead, Bobby O'Neill and Richard Judd were absent the day our picture was taken. Mrs. Whitham was their teacher.

These boys and girls were a fine group and should continue to do good work as they advance through the New London Community School and become useful citizens to their community and to their country.

Shown here are Mrs. Robinson and her group of 29 students that make up Section 6-2. They are busily learning the three R-s (readin, ritin, rithmetic) so they will be able to assume their role as adults in the New London Community in a few years.

Thirteen girls and fourteen boys make up the 8-2 home room. In their home room they spend their time not only in study and learning but also in planning outside activities such as Halloween and Christmas parties and their graduation party. These events are also a part of going to school and becoming educated. The class is taught by Mr. Vis.

JUNIOR HIGH CHORUS

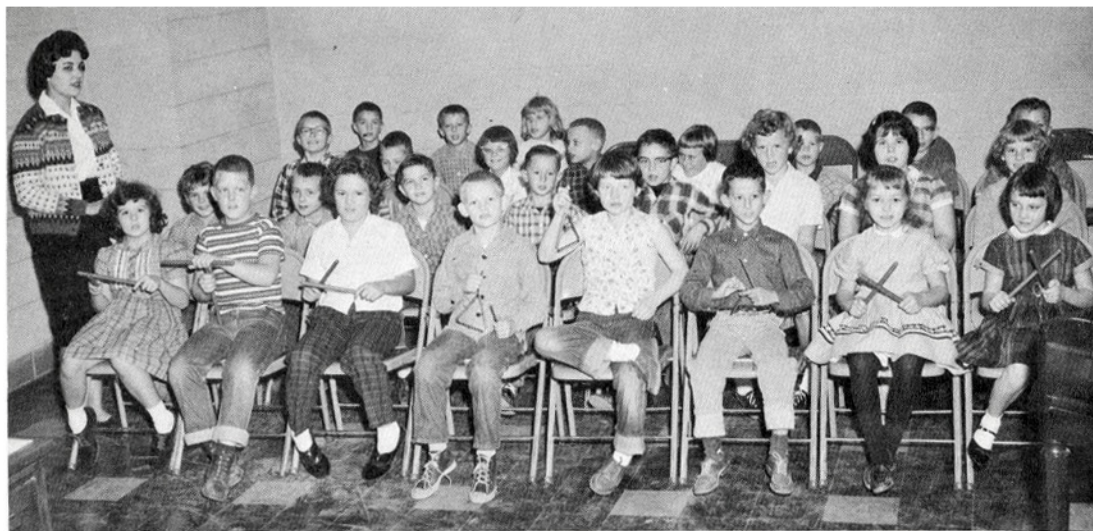

This is a select group of especially interested students. The chorus practices once a week and presents two public performances during the year, Christmas and Spring.

BEGINNERS' BAND

Although some of these people didn't get to start on their instruments until after school had started last fall, they still make rapid progress in music. They worked hard striving for a position in the junior band. Some advanced to the "Cub" band before the year was out.

GENERAL MUSIC CLASS

111 GENERAL MUSIC

In third grade they begin understanding rhythm through the use of rhythm instruments. The third grade meets three times a week and participate in two public programs.

JUNIOR HIGH BAND

Forty-four strong, the Tiger Cub band worked on marching fundamentals, then were rained out at the final football game. Undaunted, they look forward to next year. In addition to a brief concert before the grade Christmas program they appeared prior to the Spring Concert in April. Several did double duty, playing 1st parts in the "Cub" band and 2nd and 3rd parts in the "Tiger" band.

JUNIOR HIGH GIRLS CHEERLEADERS

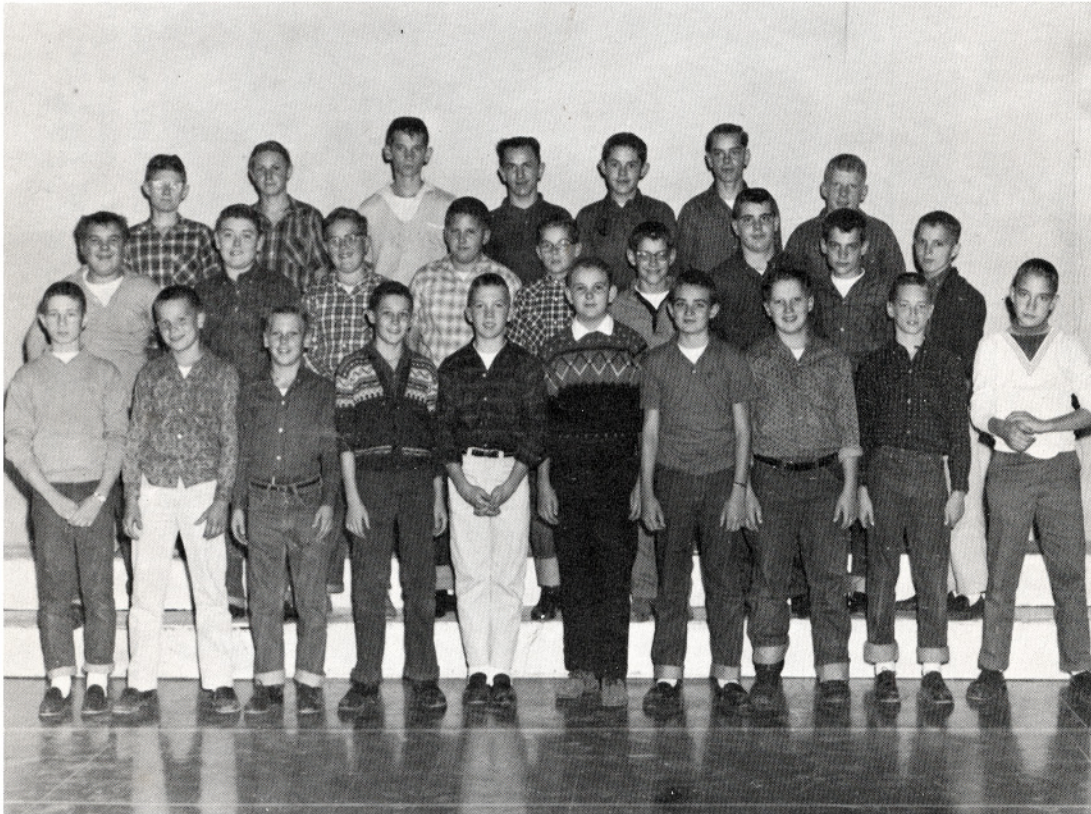

Shown above are Debbie Parsons, Carol Riepe, Sharon Parsons, Denise Totemeier, Susie Miller.

JUNIOR HIGH GIRLS BASKETBALL

This is a large group of girls who went out for Junior High girls' basketball. Their practice now will make a good potential high school team. They won two and lost two of their games. Mr. Edgar Nuss was their coach.

JUNIOR HIGH FOOTBALL

The above is a picture of the undefeated junior high football team. They played four games. Even though they were some of the smallest boys in the area, they won all their games. Mr. Joe Hauser, their coach, was absent when the picture was taken.
